### The Secure 6

This long-term deferred annuity with a 6-year time horizon is a guaranteed, stable value product for individuals seeking alternatives to certificates of deposit, short-term bond mutual funds and passbook savings.

### Tax Deferred Interest

Under current tax laws, interest earned is not taxed until withdrawn from the annuity policy. Withdrawals usually begin at retirement, which may mean a much lower tax liability. This can produce substantial income tax savings over the years because you retain earnings that normally are lost to current income taxation. Interest is taxed as ordinary income when you receive it. In most cases, if the policy is surrendered for its lump sum cash value, interest will be taxed in the year of surrender. If the policy is annuitized, with annuity benefits paid over a term of years or your lifetime, interest is taxed as annuity benefits are received.

### Safety

Your policy is backed by approximately \$4.0 billion in assets of Presidential Life Insurance Company; a New York domiciled Life Insurance Company. Both your premium and interest earnings are not subject to financial market risk. Insuring your savings is our business.

### Interest Rate

## OTHER SPECIAL OPTIONAL BENEFITS

After your policy is issued, optional benefits may be elected at any time.

### Deferred Benefit (Immediate) Annuity\*

For further protection of your policy value from dissipation concerns, the policy's full or partial accumulation value may be annuitized to fund a long-term deferred benefit (immediate) annuity. Initial annuity benefits may be deferred to a later date not to exceed 30 years creating an income annuity with an economic benefit similar to that of a pension or Social Security. Presidential Life guarantees future annuity benefits. After annuitization, your policy becomes irrevocable and annuity benefits may not be commuted, preserving policy economic values and future benefits. Deferred annuities annuitized to fund deferred benefit (immediate) annuities after one year with initial non-lifetime annuity benefits beginning before age 59½, may result in Federal and/or State income tax penalties on the interest accumulations paid.

### Impaired Risk Annuity Underwriting\*

Should you decide to annuitize your deferred annuity policy, turning it into an income policy paid over your life or a term of years, Presidential Life offers fair annuity pricing on life contingent annuity payments. The annuity benefit may be increased or the premium cost of any given annuity benefit may be reduced. The annuitant's

individual medical conditions are considered in annuity benefit pricing. These conditions must be serious enough to mitigate the annuitant's life expectancy. A skilled annuity underwriter will consider effects of illness and/or injuries from heart conditions, stroke, cancer, diabetes, paraplegia, mental retardation, etc. on the annuitant's lifetime expectations.

### Income Options (full or partial policy annuitizations)

A wide range to choose from:

- Life only with & without guaranteed periods
- Life with installment refund of premium\*
- Joint life and survivor\*
- Guaranteed benefit for a term of years
- Temporary life for a term of years\*
- Cost of living adjustments (COLAs) & graded benefit step-ups\*
- Other customized benefit schedules are available\* (see your agent)
